

Welcome back from Mid-Winter break. I hope you had a restful week. Report cards will be going home March 13th. This means your child will be coming to the "I Know" zone for the next couple of weeks. Here is a list of the sight words the children should know for report cards. They will also be expected to identify and write their numbers from 1 – 30. Please also have your child practice writing their first and last name with the first letter Capitalized and all the rest in lower case letters. We work on these everyday in Class, but additional reinforcement at home really helps the children succeed. Please also remember, that the evaluation tools we have to use are standardized. All teachers use the same forms and must be evaluated in the same way. This reflects how your child did on the day they came to the "I Know" zone. We cannot give additional clues or hints once the tasks are started. Teachers are not allowed to add subjective evaluation ideas into the scores. Let me tell you it is very difficult to do this especially when you know they know the information. Information for PTC should be going home soon too.

Thanks,

Mrs. Osborne
